Please use the space below to explain your answers to the above questions or to give additional information which you would like HPAIR to consider while reviewing your application. If you were unable to collect documentation, please explain why here and it will not negatively affect your application. You may also attach an additional sheet.

It was very late when I came to know of the scholarship opportunity associated with HPAIR. I had almost given up hope on applying when I saw the huge amounts, with respect to my current financial status, required to attend the conference. The above mentioned documents could not be procured and our bank statements were not available as it was too late and my parents have started storing money as liquid cash to meet various daily demands. We are considering building a home for ourselves now that our paternal land has been finally been transferred to my fathers name. This along with the huge amount which will come with my sisters education will ensure that without the scholarship, my dreams of attending this program will remain a dream I can never fulfill. I could not attend last years conference, let alone apply for it as I had not started working and it would have been an impossible task to even pay for the conference fees. This year even though things are far better with both me and my mom earning, we are still saving up to facilitate my sisters college education starting from next year. Having to pay all the expenses in its entirety will uproot all our plans financially. I could in the future, should the need arise, submit the recent income/expense report with ample proof. I sincerely hope that my inability to provide the necessary documents does not adversely affect my application for a scholarship. Having gone through the expectations of a HPAIR scholar, I can assure you that I will be the perfect ambassador for the conference in the coming years as I have already proved via my campus ambassador role for Deloitte. I am willing to meet all deliverables and satisfy all requirements that Harvard will expect of me as a HPAIR scholar. Earnestly awaiting a positive reply.
